ISSN: 1570-1638 (Print)

Aims & Scope

Due to the plethora of new approaches being used in modern drug discovery by the pharmaceutical industry, Current Drug Discovery Technologies has been established to provide comprehensive overviews of all the major modern techniques and technologies used in drug design and discovery. The journal is the forum for publishing original research papers, full-length/mini reviews, drug clinical trial studies and guest edited thematic issues describing novel approaches and cutting edge technologies used in all stages of drug discovery. The journal addresses the multidimensional challenges of drug discovery science including integration issues of the drug discovery process.

Current Drug Discovery Technologies is an essential journal for all scientists and research managers involved in drug discovery who wish to keep abreast of all the modern techniques and technologies used in drug discovery.

➡ Publishing Peer Reviewed Articles Rapidly

➡ Indexed in Chemical Abstracts Service/SciFinder, MEDLINE, EMBASE, Scopus, J-Gate and more...

➡ FREE Online Trials for Institutions

➡ FREE Sample Issues Available on Website
