Aims & Scope

Current Drug Therapy publishes original research articles, full-length/mini reviews of high quality on all the latest advances in drug therapy and drug clinical trial studies. The journal also publishes guest edited thematic issues on latest advances and hot areas in the field. The scope of the journal covers: new and existing drugs, therapies, medical devices, in vitro or in vivo experimental studies, disease management, adverse effects of drugs, clinical and preclinical studies, traditional medicine, internal medicine, cancer drug therapy, cardiovascular drugs, obstetrics and gynecology, pediatrics, otorhinolaryngology, etc.

The journal is an essential reading for all researchers and clinicians involved in drug therapy.
