ISSN: 1875-5739 (Online)
ISSN: 1567-2026 (Print)

Aims & Scope

Current Neurovascular Research provides a cross platform for the publication of scientifically rigorous research that addresses disease mechanisms of both neuronal and vascular origins in neuroscience. The journal serves as an international forum publishing novel and original work as well as timely neuroscience research articles, full-length/mini reviews in the disciplines of cell developmental disorders, plasticity, and degeneration that bridges the gap between basic science research and clinical discovery. Current Neurovascular Research emphasizes the elucidation of disease mechanisms, both cellular and molecular, which can impact the development of unique therapeutic strategies for neuronal and vascular disorders.

- ➔ Publishing Peer Reviewed Articles Rapidly
- ➔ Indexed in SCI Expanded, JCR/Science Edition, MEDLINE, Scopus, EMBASE, EBSCO and others
- ➔ FREE Online Trials for Institutions
